

THREAT INTELLIGENCE:- FOR SOC

Aim:-

To analyze and understand threat intelligence techniques using a Try HackMe, SOC-focused room

Algorithm:-

1. Collect threat intelligence data from various sources
2. Analyze indicators of compromise (IOCs) and attack patterns
3. Correlate findings with SOC monitoring tools
4. Generate actionable insights for detection and response

Questions

1. How many unique IP addresses were provided in the IOC list?
11
2. Based on the set of IOCs how many IOC hits were discovered in the logs search query
3. Out of the total number of IOCs how many unique
